

VEDANT WAGHMARE

SALESFORCE DEVELOPER | JAVA DEVELOPER

+91-9322837374 | vedantw.2004@gmail.com | Pune, Maharashtra, India

CAREER SUMMARY

Aspiring AI Full Stack Engineer with hands-on experience in Java, and web development, currently working as a Salesforce Developer Intern at Cognizant. Skilled in building scalable backend systems, RESTful APIs, and database-driven applications. Passionate about integrating AI into real-world applications, with exposure to prompt engineering, automation tools, and modern development practices. Strong problem-solving mindset with the ability to collaborate effectively in team environments.

EDUCATION

- ❖ Sinhgad College Of Engineering, Pune.
 - Bachelor of Engineering - Computer Science (2023-26)
- ❖ Government Polytechnic, Pune.
 - Diploma – (2020-23)

TECHNICAL SKILLS

- Programming Languages – C++, Java, Python
- Frameworks – Bootstrap, SpringBoot, RESTful APIs
- Database – MySQL
- Version Control – Git, GitHub
- Productivity Tools – Eclipse, VS Code, ChatGPT 4.O, Agentforce

WORK EXPERIENCE

- ❖ **Salesforce Developer Intern** | Cognizant | Onsite
 - Working on Salesforce development and customization within enterprise environments
 - Gaining hands-on experience in cloud-based CRM architecture and business workflow automation practices
 - Collaborating in a professional team setup, improving communication, documentation, and agile delivery practices
- ❖ **AI & Data Science Intern** | Genniesphere | Hybrid
 - Developed an AI-driven Job-Resume Evaluation System leveraging advanced NLP and ML models to accurately match candidate resumes with job descriptions.
 - Designed and automated end-to-end data pipelines for feature extraction, TF-IDF computation, and skill weighting, enhancing data accuracy and matching precision by 30%.
 - Developed and deployed database-integrated ML workflows using Microsoft SQL Server, SQLAlchemy, and pandas, ensuring efficient data handling and scalability.

❖ **Web Development Intern** | RightShift Infotech | Onsite

- Developed and deployed a fully functional e-commerce website for a grocery store, demonstrating practical application of modern web development frameworks.
- Collaborated with mentor Rajesh Jain, acquiring industry insights and best practices in web design, responsive UI development, and deployment strategies.

PROJECTS

1. **Earth First – Salesforce Admin Project:** • Designed and implemented a Salesforce-based solution applying core admin concepts. • Created an Experience Cloud site for user interaction and accessibility. • Configured objects, workflows, and automation processes to simulate real business use cases. • Gained hands-on experience in enterprise-level CRM system design
2. **Movie Recommendation System Using Content-Based Filtering:** • Developed a dynamic content-based movie recommender using Python, leveraging TF-IDF vectorization and cosine similarity. • Integrated and preprocessed multiple datasets for rich feature extraction, ensuring high recommendation accuracy. • Deployed the model using Streamlit, creating an interactive web app that offers real-time movie suggestions with a clean and intuitive UI.
3. **Student Database Management System:** • Developed a Student Management System in Java with database integration using MySQL • Implemented CRUD operations for managing student records • Utilized JDBC (Java Database Connectivity) to handle data persistence in a MySQL database.

CERTIFICATIONS

1. Salesforce Admin Certification • 2026
2. Salesforce Development Certification • 2026
3. AWS Cloud Practitioner Essentials • 2025
4. Complete Full Stack Development • 2024
5. AI Tools Proficiency • Super Human AI Academy • 2024

KEY STRENGTHS

1. Strong analytical and problem-solving ability
2. Effective communication in technical and team environments
3. Quick learner with adaptability to new technologies and tools
4. Exposure to corporate work culture and client-oriented thinking
